C&D Valve Locking Caps

LOCKING REFRIGERANT SAFETY CAP

C&D Valve's 1/4" Safety Locking Caps are engineered to meet stringent building codes while offering superior durability and security for HVACR systems. Our safety caps are designed to prevent unauthorized access and ensure system integrity.

Key Features:

- **Code Compliance:** Silver Nickel Plated caps feature a brass inner cap and fully adhere to local building regulations for safety and security. Red anodized aluminum caps also feature a brass inner cap and meet A2L regulations for safety and security.
- **Robust Construction:** Crafted from high-quality materials to withstand harsh environmental conditions.
- **Tamper-Resistant Design:** Provides an added layer of protection against unauthorized access.
- **Easy Installation:** User-friendly design allows for quick and secure attachment to standard 1/4" service ports.

Choose C&D Valve's Safety Locking Caps for a reliable solution that safeguards your HVACR systems with confidence.

Malco reserves the right to adjust order quantities and ship dates for orders due to high demand for this launch. Please contact our customer support team with any questions.
