

Service Manual

Cabinet Fan
(North America Market)
FV-10NLF1E

Model No.	Air direction	V	Hz	Power consumption (W)	Speed (PRM)	Air delivery (CFM)	Weight Kg (lb.)
FV-10NLF1E	Exhaust	120	60	30	1510	120	6.3(13.9)

*Power consumption, speed and air delivery values have been measured at 5mm WG (0.2" WG).

WARNING

This service information is designed for experienced repair technicians only and is not designed for use by the general public. It does not contain warnings or cautions to advise non-technical individuals of potential dangers in attempting to service a product. Products powered by electricity should be serviced or repaired only by experienced professional technicians. Any attempt to service or repair the product or products dealt with in this service information by anyone else could result in serious injury or death.

IMPORTANT SAFETY NOTICE

There are special components used in this equipment which are important for safety. These parts are marked by  in the Schematic Diagrams, Exploded Views and Replacement Parts List. It is essential that these critical parts should be replaced with manufacturer's specified parts to prevent shock, fire or other hazards. Do not modify the original design without permission of manufacture. We suggest to handle such parts after the static electricity prevention. It is forbidden to touch the PCB parts by bare hands during the repairing process.
