

CLV SERIES

KOBRA® GASKET SEAL BALL VALVE HOSE WITH WHIP END

Gasket sealed charging hose with quarter turn ball valve and 6" whip end for increased control of refrigerant loss. KOBRA® hose is Kevlar reinforced for superior strength and flexibility.

FEATURES

- 800 psi working; 4000 burst
- Hose end connection: straight by straight
- Ball valve end connection: straight by 45°
- Meets non-venting requirements by trapping refrigerant with ball valve
- All brass fittings open to maximum flow
- No blow-outs at high pressures
- Field repairable with replacement parts and rebuild kits
- Industry superior 5-to-1 safety factor
- Custom lengths and fittings available
