AEPJS1
WIRELESS JOBSITE SPEAKER

The Klein Tools **AEPJS1** is a powered speaker that provides 5 watts of high-quality sound for smart phones, tablets, computers and other audio devices via a wireless connection or wired auxiliary input. It answer calls hands-free with the built-in speakerphone and can be magnetically attached to any steel surface, attached to Klein's Lighted Tool Bag (Cat. No. 55431), mounted to a standard 1/4-20 tripod, attached to a lanyard, or simply stood up on any solid, level surface.

Powerful rear magnet holds speaker securely to metal surfaces

Twist-lock flange on back mounts to Klein's Lighted Tool Bag, Cat. No. 55431

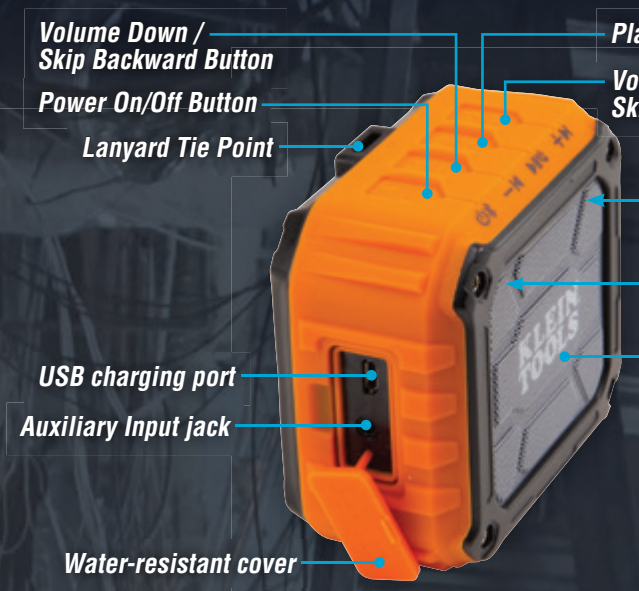

1/4-20 threaded mount on bottom allows attachment to any standard tripod

Includes 1/8" (3.5 mm) stereo auxilary cable and micro USB-to-standard USB charging cable

TOP, SIDE & FRONT OF UNIT
