MAGNETIZER

Quickly magnetize and demagnetize screwdriver tips and bits using powerful rare-earth magnets

KLEIN TOOLS®

For Professionals… Since 1857™

MAGNETIZER

Single swipe operation easily magnetizes and demagnetizes screwdrivers from precision sizes up to #3 Phillips and 1/4" slotted with square shank.

Fits these drivers

- Phillips: #3
- Keystone Slotted (round or square shank): 1/4"
- Cabinet Slotted: 5/16"
- Insulated Phillips: #2
- Insulated Cabinet: 1/4"
- Most precision screwdrivers

To magnetize screwdriver:
Insert screwdriver shaft fully into magnetizing slot; avoid rotating shaft while drawing out slowly

To demagnetize screwdriver:
Insert shaft fully into smallest demagnetizing slot that fits; avoid rotating shaft while drawing out slowly

Cat. No.	UPC 0-92644+	Length	Width	Depth	Weight
