Why Use RGF's REME® Technology?

The HALO-LED® is the industry's first LED in-duct, whole home and building air purification system that is both mercury free and zero ozone compliant. The HALO-LED® proactively treats the air-conditioned space, reducing airborne and surface contaminants and pollutants. By combining REME-LED® UV technology along with RGF's proven PHI-CELL® and REME® technologies, the HALO-LED® provides revolutionary indoor air purification.
