High-traffic environments need high performance ventilation.

Need an exceptionally quiet solution to light commercial ventilation? With their heavy-duty motors, Broan-NuTone High Capacity Ventilation Fans are the perfect answer for ventilating conference rooms, dining areas, public restrooms and other heavily-trafficked spaces. Low-vibration and low-profile, these discrete products work quietly and powerfully behind the scenes to remove odor, humidity and air-borne particulates that affect indoor air quality.

ASHRAE 90.1 2019 · IECC-C 2021 · IMC 2021 · ENERGY STAR · 2100 HVI CERTIFIED

BROAN NuTone
COME HOME TO FRESH AIR

L100E, L150E L200E, L250E, L300E
