NTE11H2

Hydraulic Tube Expander

Effortless and Durable

Hydraulic Expander

- Vacuum sealed hydraulic system, no oil change needed
- Easy expansion with extended lever
- Suitable for large diameter copper

Automatic Pressure Relief

- Tube released at final trigger compression
- Built-in manual relief button

Compact, Easy to Use

- Quick operation, fewer handle compressions
- Easy one-hand operation, convenient for narrow spaces

Quick Connect Expander Heads

- Quarter-turn head design, quick to attach/remove
