PRODUCT DATA SHEET

NOVENT® CAP Locking Refrigerant Caps

Description

Code-compliant locking refrigerant caps that prevent unauthorized access. Compatible with all refrigerants, including A2L, and feature 1/4" and 5/16" threads. Precision-machined from high-grade brass and covered by a shielding aluminum shroud. Novent caps require a special key for installation and removal. Proper installation helps stop accidental refrigerant mixing in A/C systems. Available in red or silver.

Applications

Seals standard Schrader service valves on central A/C units and mini-splits to help prevent refrigerant leakage. Protects from severe injury or death resulting from the inhalation of dangerous gases.
