Recommended

- Commercial and residential applications
- Both unitary and mini-split units
- Mounted to concrete pad or installed with ground anchors

For concrete pad application, recommend to use Tapcon 1/4" x 2 1/4" Phillips countersunk #24585. When inadequate pad clearance is an issue, consider two lock locations on either side of the pad. Dig holes to fill with Sakcrete mix and water before mounting foot brackets securely onto the filled liquid concrete.
