Glowfly™ Universal Hot Surface Igniter

Six-pack
Q3200U2002

Single-unit
Q3200U1004

MATCH AND MOUNT SIMPLICITY.

Simply compare your OEM igniter to the images below or on the packaging for quick and easy visual cross-reference.

Letters below pictured igniters indicate which bracket may be required for installation. Refer to instruction guide prior to installation. See product instructions for complete cross-reference and installation details. Always refer to product instructions prior to installation for complete bracket application guide.

SIX BRACKETS. 110+ POSSIBILITIES.

Every Glowfly comes fully equipped with six custom mounting brackets that are optimized to replace over 110 igniter applications.

IMPORTANT!
Visual cross-reference is to be used only as a product selection guide. Always refer to product instructions for bracket selection and installation details prior to installing. Igniter replaces additional models not pictured.

[a] Table data is correct to the best of Resideo's knowledge as of this publication's date. However, some appliances may have igniter applications that are beyond the capabilities of this kit.

[b] For igniters that require bracket A, use the template (Fig. 2 on page 3) to determine the tab to be removed.

[c] For Carrier sealed combustion furnaces, you must use bracket E and retain the existing orange gasket for use with bracket E.
