DGAPAXX Infinity®Air Purifier Sizes 1620, 1625, 2020, 2025, 2420

Product Data

CULUSTED

ZERO OZONE EMISSIONS – MEASURED OZONE EMISSIONS FROM INFINITY* AIR PURIFIER DURING USE PHASE DOES NOT EXCEED O.00S PPM AS TESTED ACCORDING TO CSA C22.2 NO. 187-20.

The Infinity air purifier treats the air flowing through your HVAC system's air handler.

It combines outstanding filtration efficiency of a MERV 15¹ rating with pathogen-killing technology to deliver enhanced air purification.

The Infinity air purifier is designed to require minimal maintenance, limited to the replacement of the air purification cartridge and inspection/brush cleaning of the ionization array. Frequency of air purifier cartridge replacement and cleaning of the ionization array may vary depending on ductwork design and local environmental conditions.

Features / Benefits

Filtration Performance — High efficiency MERV 15¹

Purification Performance — Featuring patented Captures & Kills® technology, the Infinity air purifier offers proven, third-party tested effectiveness with a 99% inactivation of captured viruses and germs when used as instructed, including:²

- Coronavirus
- · Common cold surrogate
- · Bacteria that causes strep throat
- · Human influenza

Simple — Virtually no cleaning required. Simply change purifier cartridge periodically.

Easy to Install — Five distinct cabinet sizes help to ensure a perfect fit to the bottom and side of most fan coils and furnaces. Includes power cords.

Application Possibilities — Unit can be installed in a horizontal or vertical position, which makes it equally adaptable to horizontal, downflow, or standard upflow applications.

Solid-State Power Supply — Power supply is a highly reliable, dual voltage compatible, state-of-the-art, solid-state device.

Durable Cabinet — Heavy-gauge steel cabinet supports up to 400 lb when installed beneath a fan coil.

Agency Listed — Model DGAP air purifier is UL (Canada and US) listed.

Financing — Eligible for consumer financing program.

A11332

MERV is a filter efficiency standard ranging from 1 to 16 (higher MERV = higher efficiency). The Infinity air purifier achieves a MERV 15 rating based on third-party testing (2012) showing 95% of particles size 1.0 to 3.0 microns captured and 85% of particles size 0.3 to 1.0 microns captured.

^{2.} The Infinity air purifier has demonstrated effectiveness against the murine coronavirus, based on third-party testing (2020) showing a >99% inactivation, which is a virus similar to the human novel coronavirus (SARS-CoV-2) that causes COVID-19. Therefore, the Infinity air purifier can be expected to be effective against SARS-CoV-2 when used in accordance with its directions for use. Third-party testing (2012, 2007) also shows ≥99% inactivation for the type of virus that causes common colds, Streptococcus pyogenes and human influenza. Airborne particles must flow through your HVAC system and be trapped by the filter to be inactivated at 99%.
